

3/4 Log Cabin Quilt

A Modern version of log cabin quilt

Together we will explore and learn the fast, fun way to a modern version of tradition log cabin quilt.

We will focus on making blocks to make a 24-30" x 24-30" top which can easily be expanded to any size you want.

Supply List:

minimum 12 quarter yards either Fat Quarter or straight cut Quarter Yard Cuts or scraps, more are always okay
I used all Kona solids in bright non primary colors such as:

Corn yellow, Cheddar, Papaya, School bus, Flame, Cerise, Berry Eggplant, Bright Pink, Pomegranate, Pacific, Lagoon, Cyan, Cactus, Sprout, Peapod

Use your own color aesthetic to make your blocks

Sewing Machine in good working order

Basic sewing supplies

Rotary Cutter with new blade

Cutting ruler that cuts width of fabric (I use Creative Grids 24 x 8.5 for example)

Cutting Mat to cut WOF or large enough work on 12.5" square block

Optional: rotating mat

Optional: Square ruler minimum size 12.5" (I use Creative Grids 12.5" square)- very helpful

Please call 508-818-2332 or email nextgenerationquilting@gmail.com with any questions. I look forward to working with you on your project.

Happy Quilting!

Kathy Graves
