

Round 1 – Due December 12, 2017

For the first round, you will add a 2" finished (unfinished 2 ½") border with squares and/or rectangles. Some possible suggestions are four patch squares, checkerboard squares, etc. You can combine squares with rectangles or just use either. They can just be in the corner squares or used throughout the border.

Once this is added, the block should measure 16" finished (16.5" unfinished).

Round 2 – Due February 13, 2018

For the second round, you will add a pieced 3" finished (unfinished 3 ½") border with triangles and/or diamonds. The triangles can be any shape/style triangles. Some possible suggestions are half square triangles, flying geese, 60 degree triangles, etc. Diamonds can also be any shape. Use the shapes just in the corner squares or throughout the border.
