

## WHO'S THE CUTEST??

"Learn Toni Whitney's art quilt method using fabric and fusibles. Class fee is \$15, but for \$30 you'll get the class, the pattern (which sells for \$10), 3 pieces of "Steam a Seam" fusible pre-printed with all pattern pieces, a piece of non-stick parchment and a piece of clear vinyl for laying out pattern pieces."

### Supplies

- Appliqué pressing sheet
- sharp, fine point scissors
- 2B mechanical pencil
- 18" x 19" piece of low loft batting
- 18" x 19" piece of fabric for backing
- 12" x 20" @Lite Steam-A-Seam fusible web
- Use a pin or micro tip tweezers for positioning small pieces
- 11" x 12" piece of clear vinyl to make an overlay sheet by tracing the layout guide, or you can have the layout guide copied onto transparencies at a copy center. To make your own, tape the vinyl sheet to the top of the layout guide and trace the lines with a permanent marker. Use this sheet as you build by placing it on top of your project, allowing you to see exact piece placement, just lift slightly and slip pieces into place.

If you purchase the supply and pattern packet you can cross the following off this supply list:

applique pressing sheet

Steam a Seam

clear vinyl

If you opt to bring your own Steam a Seam, you must transfer all pattern pieces BEFORE the class, manually or by using a printer. Manual transfer of pattern pieces is a very time-consuming step! You don't want to do this on class day!

### Fabric requirements

#### Hoffman CA Batiks

- |                                 |                             |
|---------------------------------|-----------------------------|
| 1. 839 Alabaster (cream)        | 8" x 10"                    |
