

Cutting Instructions

The cutting instructions for each fabric set contain both a listing of pieces by size for cutting from multiple fabrics and cutting instructions for each set using a single fabric. Please note that if using the cutting instructions for a single fabric, in some cases a few more pieces will be cut than needed in the pattern.

Piece sizes marked with an * indicate fabrics that will be used in half square triangles (HST), square in a square, or similar blocks so if you like to oversize these blocks then trim to size, please add a ¼ or ½ inch to the listed measurements.
