Half Square Triangle Units

Using 72 fabric set A squares (4″ x 4″) and 72 fabric set B squares (4″ x 4″), form 144 HSTs (3½″ x 3½″).

a. Place a fabric set A square (4″ x 4″) and a fabric set B square (4″ x 4″) right sides together. Draw a diagonal line using a removable marking device on the back of the fabric set B square (shown as the solid line).

b. Sew ¼″ on either side of the solid line (dotted lines). Cut on the solid line and press seam towards the fabric set A fabric.

c. Form 144 HST units, trimming each to (3½″ x 3½″). Note: each set of one fabric set A square and one fabric set B square will yield two HST units.
