

Pepperell Patchwork Mountains Mystery Quilt Part 3

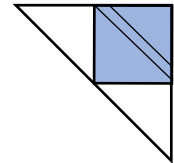

- Mark the back of 80 (64, 48) Fabric set B 5" squares with a diagonal line from corner to corner.

- Mark a second line 1/2" to one side of the first line.

- Align a marked 5" square on top of a Fabric D triangle with right sides together, with the marked lines parallel to the long edge of the triangle as shown. Make sure that the second drawn line is closest to the triangle corner.

- Sew on the first drawn line (the one from corner to corner.) Continue to chain stitch all the sets for a total of 80 (64, 48) units.
- Repeat this step, sewing on the second marked line, sewing in the same direction. Clip the threads between the units.
- Cut between the two stitched seams, yielding two sections, a triangle and a square.
- Press both sections toward the Fabric B fabrics, away from Fabric D fabrics.
- Trim the small squares to 4" (4", 3 1/2").
